Professional Summary

A Mechanical Engineering undergraduate and Full-Stack Web Developer eager to seek solutions to everyday challenges. I am fascinated by how things work, not necessarily objects. It's all about finding the core of a problem, planning a clear path forward, and implementing a solution that actually makes life easier for people. I am ready to bring different ideas together, learning quickly, and turning difficult concepts into simple, effective results.

SKILLS

Software & Programming Skills:

- **Web Development (Frontend/Full-stack):** JavaScript, HTML5, CSS3, React, [Next.js](#).
- **Backend & Database:** Node.js, NestJS, MySQL, Supabase, phpMyAdmin.
